Senators announce change to 2006 Indoor Percussion Show

The Senators are pleased to announce that the Indoor Percussion Ensemble has changed the theme of its show for the 2006 season

The new show is entitled **THE HEIST** and is based on a jewellery robbery, picture the scene - Eindhoven Museum, Holland and the 4 million Euro, Millenium Star Diamond is on show for 1 day only, security is tight but Jack Siou the famous thief is tempted out of retirement for one final swansong. This is the biggest challenge he has faced, is it possible ? can it be done ? can he really steal the most expensive diamond in the world ?

To stand any chance he needs to do his homework, and this is where we pick the story up - the show is divided into 3 parts

1. Gathering background information about the Museum and the possibilities of breaking and entering
2. Formulate a plan, he needs Blueprints of the Museum and tools of his trade to perform the robbery
3. Carry out the raid, with everything in place this is the moment, this is.....**THE HEIST**

The Senators are looking forward to performing THE HEIST in both the UK and Europe and hope the audience enjoy it, as much as the members and staff have, in putting the show together.
